Disclaimer

The contents of this Toolbox reflect the opinions of the respective authors and not necessarily the official opinion of the funding or supporting partner organisations.

Depending on the initial situations and respective local circumstances, there is no guarantee that single instruments described in the Toolbox will improve the situation in a sustainable way. Results depend largely on the respective situation and the implementation and combination of the measures described. An in-depth analysis of respective advantages and disadvantages and the suitability of the measure is necessary in every single case. We do not assume any responsibility for and make no warranty with respect to the results that may be obtained from the use of the information provided.

Partnerships in Practice

WSI-Model

- The WSI-Model provides a template to help participants understand how a WSI will be structured, function, and generate benefits.

It is meant to:

- Structure and understand the governance and logic of a WSI in a participatory process
- Establish a reference to assess and improve the WSI's integrity and impact

The WSI-Model is based on the idea of the Business Model Canvas developed by Osterwalder & Pigneur (2010)

The CEO Water Mandate

Building blocks

Affected stakeholders	Mechanisms for engaging affected stakeholders	Goals and objectives	Benefits	Local water challenges and priorities
Which actors' interests are affected? What are their main interests? Which affected stakeholders stand to lose?	What mechanisms will be/are established to solicit external input? How will/is relevant information communicated to affected stakeholders?	What are the main objectives and goals of the initiative? What is the initiative's main function?	What are the main benefits of the initiative? And who will be benefiting?	What local water challenges exist in the basin? What are the local policy priorities for the region?

Building blocks (cont.)

Participants	Activities	Responsibilities within the WSI	Commitments and contributions	Governance Structures
Who should be/is involved in the initiative? As active participants?	What activities will the initiative pursue?	What are the main responsibilities of the WSI participants?	What commitments and contributions have been made?	What internal governance accountability structures exist for the initiative and how effective are they?
